RECOMMENDED COUNCIL ACTION: Motion to approve a construction contract with Sierra Nevada Construction of Sparks, Nevada, in order to complete the 2020 Preventative Maintenance project, PWP-CH-2021-022, for their Base Bid and Bid Option No. 1 in the total amount of Two Hundred Ninety-Seven Thousand and Seven Dollars (\$297,007).

DESCRIPTION: This project is a continuation of a multi-phased approach to preventative street maintenance and rehabilitation throughout the City. Slated for the Fall of 2020, this phase of our preventative maintenance plan would allow for the application of 1,100,986 square feet of crack and slurry seal. The application of pavement crack seal and Type II rapid setting slurry to existing pavements will aid in filling cracks and voids, creating a weather-tight seal and providing color and texture to surfaces while prolonging life expectancy.

Working with Lumos and Associates, the City of Fallon has performed a conditions assessment survey of existing City streets. The data compiled from that survey was used to classify existing pavements into two categories based off the applicable pavement preservation techniques. The scope of this project includes portions of 31 streets throughout the City that were deemed appropriate for a crack and slurry seal application.

BACKGROUND: This project was released for public bid on September 23, 2020 and was advertised in the Lahontan Valley News in accordance with NRS 338.1385. Two (2) bids were received and opened on October 7, 2020 as further described in the attached documents.

Never talked to them. They waited in their vehicle as I locked up my bus. I just waved to thank them as I left. But the homeless person left when they showed up. Thank you much!

Officer Sanchez was very helpful as this was my first time filing a report

I forgot the name of the officer. I live on Lincoln Street and he patrols our area during the day. He listened, was professional and took care of the problem I had. Be careful, we love you police officers.
